

Research Analyst

Southwick Associates is a market research economics and statistics consulting firm specializing in serving the outdoor equipment industry, state fish and wildlife agencies, conservation and sportsmen's NGOs and the supporting businesses. Celebrating more than 30 years, we are known as problem-solvers, developing solutions and new products now widely used by our client base. We are the go-to firm in the natural resources and traditional outdoor recreation fields when difficult challenges surface and answers are needed.

Position: Research Analyst for hunting, fishing, target shooting, recreation, and natural resources consulting.

Responsibilities: The professional in this position will conduct quantitative survey and statistical-based analyses. They would also be someone who can go beyond summarizing the data in front of them; to instead support client's needs with substantive insights. We also want someone interested in identifying research opportunities, new methodological approaches and processes. As a representative of Southwick Associates, good communication skills are a must. Occasional travel may be required. This professional would join a skilled and experienced team and a work culture with a mix of independent and collaborative work, as the projects require.

Qualifications:

- Bachelor's or master's degree in a quantitative field such as statistics, economics, or business analytics and 3-5 years of experience preferred. Strong analytical skills in the areas of primary and secondary research are required.
- Experience with designing, managing, and executing research projects that include data collection, analysis, and reporting (technical report, infographic, or presentations).
- Proficient with statistical software (such as R or SPSS) and MS Office suite. Experience with online survey platforms is beneficial.
- Independent self-starter, organized, self-disciplined and able to work individually or as part of a team with limited oversight.
- Strong organizational, written and oral communication skills necessary. Examples of written work are requested.
- Detail-oriented with a commitment to accuracy.
- Hunting/target shooting/fishing experience is preferred.
- All staff work remotely from locations of their choosing all across the U.S.. Experience working in this kind of environment is also preferred.

Compensation:

- Salary commensurate with experience, annual profit share, 401K plus company contributions, health benefits via a QSEHRA reimbursement plan, paid time off including vacation, holidays, and similar.

Posting closes on November 11, 2022 or once filled. Send letter, resume, and writing/communications experience to LBragg@SouthwickAssociates.com.
